Burrell Wrist Action Shaker

Duplicates the swirling action of hand mixing. But with even motions, at all speeds, for as long as necessary-up to 60 minutes, or continuous. Whether you're processing full or partial, equalized or unbalanced loads, the result is a reproducible procedure.

Features:

- Volumetric flasks: Any size
- Erlenmeyer short-neck, flat, or round-bottom flasks: 200 ml
- Bottles: 118 ml
- Test tubes: up to 23/16 in. diameter (55 mm)
- Adjustable shaking control with 1 to 10 setting range
- Shake at any set time up to 55 minutes or continuously
- Loads do not have to be equalized or balanced 93w (1/8hp) motor
